PROFILE STATEMENT

Last year, I decided to change my career from being a Trainer/Assessor to a Front-End Developer.

My skills and interest in analytics and problem solving that made me successful in my previous career in Telecommunications, are also what allows me to quickly adapt to IT development.

The future of work is in IT and web development, and it excites me to be a part of this.

I value honesty, loyalty, and self-development, and these directly influence my work ethic and determination with whatever project I am working on.

TECH SKILLS

- HTML5
- CSS3, Flexboxes, Bootstrap
- JavaScript
- Responsive Web Design
- Wireframing with Ninja Mock
- Creating Test Suites, Debugging, IDE using VSCODE.
- Git, GitHub, and Terminal commands.
- Asana, Trello, Slack
- Microsoft Office
- Alcatel S12 DSS Hardware

EXPERIENCE

Nov 2020 - Present
Front End Web Developer Volunteer
Code for Australia,
Sydney

Working with Code for Australia on their climate change project as Front-End Developer. Climate change is an important issue in history of mankind, and I like to contribute to the project. I am getting good exposure and experience and use React language to work on front page development of their website.

Oct 2020 – Jan 2021
Frontend Web Development Intensive Participant
Generation Australia,
Sydney

I was accepted to the Generation Australia 12-week intensive program, facilitated by Academy Xi.

Whilst this was also education, the commitment was a minimum of 38 hours per week with task and project requirements.

- **Tech skills learnt:** CSS3, HTML5, Vanilla JavaScript, VS Code, Git terminal (Git Bash), GitHub, NPM and unit testing basics.
- Created a Task Planner App using HTML, CSS and JavaScript, all projects hosted on GitHub.
- **Additional skills:** Growth mindset, Future orientation, Effective communication, Teamwork, Persistence, Exposure to guest speakers, collaboration and more.
- Working as Job Breakdown Sheet (JBS) implementation Coach / Assessor, security officer and Customer Service Agent in Sydney Airport's ID Access and Lost Property Management Division.
- Conducted one on one coaching session with more than 150 employees, demonstrated JBS and followed with on the job (OTJ) assessment to implement a consistent inspection process across all security inspection points at Sydney airport.
- Provided high quality customer service to passengers, contractors, and airport staff.

July 2012 - Present
Trainer / Assessor / ASO
CERTIS Security Pty
Ltd, Sydney

- Conduct meetings professionally at client's premises discussing their finances with full client participation.
- Meeting resulted in sales of company's financial services and increased customer base through referrals.

June 2010 – Jul 2012
Sales Associate
McCarthy Group
Sydney

- Feb 2008 to Dec 2009 – Worked in middle management role. Managed remote access, Lab management and process for Telstra system. Also managed purchase requests, orders and looked after installation of systems in Lab.

Oct 2000 – Dec 2009
Technical Support Engineer
Alcatel Lucent Pty Ltd
Sydney

- Oct 2000 to Jan 2008 – Worked as Technical Support Engineer to analyse, investigate & solve hardware faults for S12 DSS with minimum interruption to service in most efficient ways to meet strict expectations of the customer, major client being Telstra.
- Provide root cause analysis report to customers and to perform Software as well as Hardware retrofits for S12 DSS.
- All the Hardware faults were resolved within agreed time limits with 100% system availability. Hardware (HCIN) as well as software retrofits (SAS 7 , SAS7 Up 2) were deployed in time according to schedule.
